Action Taken Report
2022-2023

The Feedback Analysis Committee of the institution designs and collects feedback from its stakeholders to monitor and evaluate performance quality on curriculum and curriculum-related issues. The feedback forms were collected from students, teachers, employers, alumni and parents. Having scrutinized & analyzed contents of the feedback, under the guidance of principal following Action Taken Report is prepared.

I: Feedback from Students:

Feedback	Action Taken
The aspect whether the syllabus is having ability to make your all round development.	Feedback forms were given to college students to record their responses on the issue: How far the contents of the syllabi suffice the requirement of students' all round development. All the teachers were made aware of the students' responses and they were directed to employ more appropriate teaching-learning methods and techniques. They were further advised to establish personal rapport with students and understand their problems of comprehension, recalling and reproducing the items taught.
On the question whether the syllabus would be beneficial to build career of students.	Formal instructions were given to college teachers to ponder over the ways and means to make the syllabi career oriented. As a remedy, university approved Skill Based Certificate Courses were introduced in the college with a view to make students economically independent.
About the question whether the syllabi have strength to make the students ideal citizen.	Subject knowledge taught in the classroom enables students to pass university exam. Special efforts were taken to organize students' seminars, essay competitions, group discussions on Rights & Duties of citizens. Guest speakers were invited to address students on citizens' fundamental rights & their civic responsibilities.

II: Feedback from Teachers:

Feedback	Action Taken
The employability aspect of the present syllabi.	Special efforts were made to introduce university approved Skill Based Certificate Courses. In each course 20 students are enrolled. The courses such as Certificate Course in Spoken English and Certificate Course in Agro Economics definitely make students economically self reliant.
The question on teaching aids and support of adequate learning resources.	Considering feedback responses from teachers the principal directed teachers to adopt innovative techniques and audio-visual teaching aids. He advised them that before going to class teaching they should prepare a list of teaching items and formulate a strategy to facilitate students learning process.

III: Feedback from Alumni:

Feedback	Action Taken
The communication aspect of the college.	A few alumni of our college are in teaching profession. We decided to organize their guest lectures. Some of our alumni are journalists; we decided to organize their speeches on the topic of drafting news items, writing columns, editorials etc.
The college development according to the changes in circumstances.	Keeping in view the importance of vocational guidance in present socio-academic situations, we decided to invite local entrepreneurs to guide our students on self employment. We formed MoUs with eight organizations. Our MoU partners share their experiences and enlighten our students on new avenues of self employment.

IV: Feedback from Employers:

Feedback	Action Taken
The syllabus is compatible with industry / applicable / relevant to real life situations.	There is no university syllabi that fulfills needs of urban, rural and tribal students at a time; furthermore, their socio-economic backgrounds are stumbling stone in their process of learning. The students hailing from villages and poor socio-economic background find the syllabi incompatible in terms of procuring jobs and self-employment. Our principal directed all departments to take up survey projects and pay visits to nearby villages. In doing so students have opportunity identify social problems and their incompetence in solving them. Each department takes out Annual Study Tour of students. Under the auspices of the college Staff-Club, every year, teachers Study Tour is taken out nearby colleges having good academic reputation.
The syllabus is sufficient to enable students analyze the given problems and arrive at the necessary solutions.	Most of the syllabi of the university lack practical aspects hence students are not adept in using the knowledge of syllabi in day to day life. Hence students are not well groomed in methods of analyzing situations & arriving at solutions. Our principal directed all teachers to groom students in applicability of the syllabi in social situations besides completing them in class rooms. All departments engage their students in Social Field Survey Projects.

V: Feedback from Parents:

Feedback	Action Taken
Employability focused in the curriculum	Ours is Arts College where students are groomed in subjects of social studies. Students possessing knowledge of social studies fare very well in competitive examinations; hence we bought books of competitive exam guidance, General Knowledge, Books Compiled of Solved Question Paper. We constituted Career Guidance Committee.
